

Providing support and inspiring confidence

EMOTIONAL INTELLIGENCE TECHNOLOGY

THE 1ST STANDARDS BASED, ADAPTIVE EQ APP

ABOUT US

STRUT Learning develops research-based digital solutions which integrate academic, emotional, and behavioral success metrics while mitigating the negative side effects of technology on Social and Emotional Learning (SEL), commonly known as Emotional Intelligence (EQ). Together with state standards and academic curricula, a range of adaptive assessments, and choice driven emotion-based adaptations (EQ Smart), we are developing and leading the market in technology driven emotional intelligence research and technology. Simply put, we are developing accessible classroom apps that provide healthy ways to engage, motivate, and educate students in the area of emotional and behavioral development (from self confidence, relationship development, to responsible decision making) within social science and in an authentic and individualized manner.

NEED FOR SEL

-  SEL helps individuals manage emotions, motivation, behavior, and decision making
-  Life's successes and challenges relate to emotional intelligence, not academic knowledge
-  Department of Education states 40% of preschoolers do not reach a "good level of development" prior to entering school

SEL EFFECTIVENESS

-  11% higher academic & standardized scores
-  10% reduction in negative behavior
-  46% probability of having a full-time job at age 25

SCHOOL ADOPTION

-  SEL standards are now required by law in all 50 states
-  Over 97% of Principals believe SEL will improve student behavior, learning, and development
-  Though 90% of school leaders want to implement SEL, most have failed to implement effective SEL curricula because of cost, time, training, and scheduling

STRUT SOLUTION

-  STRUT is the first to offer a standards-based, academic, adaptive SEL education technology solution that overcomes all traditional barriers. Works on any computer or tablet
-  No additional class time or lesson plans; STRUT incorporates SEL within Social Studies curricula
-  STRUT offers low price strategy, giving school systems the first viable option to implement SEL on a large scale. The annual cost per student is \$9

STRUT EQ APP

-  Adaptive to 3 student profiles (ADHD, Standard, Trauma)
-  Technology adapts to students emotional intelligence/ learning style and works on all tablets and computers
-  Increases social engagement by fostering the development of healthy and authentic behavior and self-expression during social interactions

STRUT THOUGHT LEADERSHIP

-  Pioneering and developing academic and scientific research in the area of SEL technology
-  Developing a broad range of partnership with thought leaders (academic, nonprofits, and school stakeholders)
-  Inspiring the adoption of standards-based and ethical SEL curricula within the edtech industry
