Technology will never replace great teachers, but technology in the hands of great teachers is transformational.

George Couros

Technology, is of course, a double edged sword. Fire can cook our food
but it can also burn us.

John Silva

For the future, primarily, we must education people in science,
engineering, technology, and math.

The promise of SEL to foster increased achievement and equity in American education may not be realized unless more work is done to connect ideas with practices and address the political and cultural assumptions that are not being built into contemporary approaches.

Diane Hoffman

3 Key opportunities to use education technology to expand the teaching of social and emotional skills and maximize impact: capitalize on what works, embed SEL into foundational edtech products, expand the realm of possibilities.
